PROPERTY OF THE  
LIBRARYNUMBER AND AREA OF CENSUS-FARMS AND  
COMMERCIAL FARMS FOR  
PROVINCES AND COUNTIESNOMBRE ET SUPERFICIE DES FERMES DE RECENSEMENT ET  
DES FERMES COMMERCIALES DES  
PROVINCES ET DES COMTÉS

This report presents the number and area of agricultural holdings reported in the 1966 Census of Agriculture. These agricultural holdings are presented as "census-farms" and "commercial farms". Comparable totals are given for the 1961 Census.

Attention is directed to the definition of terms that are presented below. An understanding of these terms will permit a more meaningful use of the statistics that appear in this and subsequent releases. An understanding of the terms "census-farm" and "commercial farm" is desired as these are the two principal categories for which agricultural data are presented in the various releases of the 1966 Census of Agriculture.

Historically the census of agriculture has endeavoured to provide statistics from all producers of agricultural products. These statistics have been presented for agricultural holdings referred to as "census-farms". Many of the "census-farms" are small holdings which have been and are rural residences, holdings of semi-retired people and of part-time operators who hold full-time or part-time jobs outside of farming. A substantial proportion of these small scale holdings would not be regarded as "farms" by many users of statistics since the operators do not rely on their holdings for a major part of their income.

Le présent rapport présente le nombre et la superficie des exploitations agricoles déclarées dans le recensement de l'agriculture de 1966. Ces exploitations agricoles sont déclarées comme des "fermes de recensement" et comme des "fermes commerciales". Des totaux comparables sont donnés pour le recensement de 1961.

Nous désirons attirer votre attention sur les définitions des termes qui sont présentées ci-dessous. Une bonne compréhension de ces termes permettra un meilleur usage de la statistique qui paraîtra dans la présente édition et dans les éditions subséquentes. Une compréhension des termes "ferme de recensement" et "ferme commerciale" est souhaitable car elles sont les deux principales catégories pour lesquelles les données agricoles sont présentées dans les diverses éditions du recensement de l'agriculture de 1966.

Par le passé, le recensement de l'agriculture s'efforçait de fournir la statistique provenant de tous les producteurs de produits agricoles. Ces statistiques ont été présentées dans le cas des exploitations agricoles qui sont dénommées "fermes de recensement". Plusieurs fermes de recensement sont de petites exploitations qui ont été et qui sont encore des domiciles ruraux, des exploitations de personnes pratiquement à la retraite et d'exploitants à temps partiel qui travaillent à plein temps ou à temps partiel hors de l'exploitation. Une proportion importante de ces exploitations de petite envergure ne seraient pas considérées comme "farms" par plusieurs usagers de statistiques étant donné que les exploitants ne dépendent pas de leurs exploitations pour la majeure partie de leur revenu.

Recent censuses of agriculture have presented data for a category of "census-farms" referred to as "commercial farms". It will be noted below that the minimum agricultural sales requirement for a "commercial farm" was raised to \$2,500 for the 1966 Census. The definition of various terms follow:

Census-farms are defined as agricultural holdings of one acre or more with sales of agricultural products during the past twelve months of \$50 or more.

Commercial farms are defined as agricultural holdings of one acre or more with sales of agricultural products during the past twelve months of \$2,500 or more (excluding "institutional farms", etc.).

Future reports for the 1966 Census of Agriculture will present data for additional classifications of "census-farms", including institutional type farms and a classification of "commercial farms" by gross sales of agricultural products. Data will also be presented for part-time operators.

The 1961 Census defined a "commercial farm" as a "census-farm" with sales of agricultural products during the past twelve months of \$1,200 or more (excluding "institutional farms", etc.). Information on "commercial farms" for 1961 in this release uses the 1966 definition of \$2,500 or more in sales of agricultural products. The number and area of "commercial farms" reported here for 1961 will therefore be less than that reported in the 1961 Census Publications. It should be noted that variations in farm production and prices of agriculture products affect the number of "commercial farms". Between 1960 and 1965 the farm index of prices of agricultural products for Canada increased from 250.0 to 280.7.

In some sections of the Province of Quebec, the land measure is the "arpent" and enumerators reported land area in this unit. The conversion to acres was made by the Dominion Bureau of Statistics, using the factor "1,000 arpents equal 845 acres".

Dans les recensements agricoles récents on a présenté des données pour une catégorie de "fermes de recensement" appelées "fermes commerciales". Il est à noter, ci-dessous, que l'exigence minimum de ventes agricoles pour une "ferme commerciale" a été élevée à \$2,500 au recensement de 1966. Voici les définitions de divers termes:

Une "ferme de recensement" se définit comme une exploitation agricole d'une acre ou plus avec des ventes de produits agricoles de \$50 ou plus au cours des douze derniers mois.

Une "ferme commerciale" se définit comme une exploitation agricole d'une acre ou plus avec des ventes de produits agricoles de \$2,500 ou plus au cours des douze derniers mois (à l'exclusion de "fermes d'institution", etc.).

Des rapports, qui paraîtront plus tard relatifs au recensement de l'agriculture, 1966, comprendront des données pour les classifications additionnelles des "fermes de recensement" comprenant les fermes d'institution, et une classification des "fermes commerciales" suivant les ventes brutes de produits agricoles. Des données seront aussi présentées pour les exploitants à temps partiel.

Au recensement de 1961 une "ferme commerciale" était définie comme étant une "ferme de recensement" avec ventes de produits agricoles de \$1,200 ou plus au cours des douze derniers mois (à l'exclusion de "fermes d'institution", etc.). Des renseignements sur les "fermes commerciales" pour 1961 dans cette publication se fondent sur la définition de 1966 "de \$2,500 ou plus de ventes de produits agricoles". Le nombre et la superficie des "fermes commerciales" publiés ici pour 1961 seront, par conséquent, inférieurs à ceux publiés au recensement de 1961. Il est à noter que les variations de la production agricole et le prix des produits agricoles influent sur le nombre de "fermes commerciales". Entre 1960 et 1965 l'indice agricole des prix des produits agricoles pour le Canada a augmenté de 250.0 à 280.7.

Dans certaines parties de la province de Québec, la mesure agraire est l'"arpent" et l'agent recenseur a inscrit les superficies suivant cette mesure. La conversion en acres a été faite au Bureau fédéral de la statistique, à raison de "1,000 arpents pour 845 acres".
